**Title**

The title of this week's unit is “Getting to Know Google Slides.” It is part of the large web site “Google Tools for the 21st Century” that will introduce students to four Google tools they will use in my classes

**Description**

This unit is designed for 8th grade students who are learning to use Google Slides as part of their class presentations. This will be a step-by-step guide for students to follow as they learn how to create presentations using Google Slides.

**Objectives**

- At the end of this week's unit, students will be able to create a presentation in Google Slides
- When given an example of a slide, the student will identify all 5 elements of slide design with 80 percent accuracy.
- When given a specific topic, the student will create a presentation using all 5 elements of slide design with 80 percent accuracy.

**Pre-Steps**

Prior to starting the learning module, students will need to have set up their Google accounts and know their passwords.
